

Your bottom-line **growth partners** through top-of-the-line **tech**!
How? By hiring the tech folks for you, or us doing your tech, as simple as that.

Services

Be it a complex web platform or a futuristic mobile app for your brand, we've got you covered. We can also hire and host dedicated tech teams for you at a fraction of the cost. Here's a boring list for you to go through:

Software Design & Development

- Web Development
- Mobile App Development
- Quality Assurance and Testing
- Cloud Infrastructure Management
- UI/UX Designing

Tech Staff Augmentation

- Talent Hunt & Technical Evaluation
- Administrative & Equipment Support
- Resource Productivity Optimization
- Replacement & Exit Management
- Payroll & Legal Support

Industries

It doesn't matter which industry you belong to; we've dabbled in quite a few. Hopefully, we haven't caused too much disruption along the way.

Logistics & Distribution

Healthcare

Agriculture & Farming

Retail & eCommerce

Tourism & Hospitality

Cultural Institutions

Tech Expertise

Our engineers know a thing or two about technology, you can tell from the number of logos below (are they even countable? P.S. there are 30).

HTML5

CSS

JavaScript

TypeScript

jQuery

node

Vuejs

React

ANGULAR

ember

php

Laravel

yii framework

CodeIgniter

amazon web services

python
