PegaSync

Your bottom-line growth partners through top-of-the-line tech!
How? By hiring the tech folks for you, or us doing your tech, as simple as that.

Philosophy

Scaling and optimizing the business can be very challenging if you don't have the right partners or team, and often times, high costs associated with tech transformation can be a blocker.

Humans continue to change the world through tech, the most recent example being AI - ChatGPT, Gemini, etc. But innovation without sustainability is just a fancy way of burning money.

So, let's cut to the chase. We can help by:

- Hiring and managing the right techies for you, or;
- Developing top-notch web & mobile apps.

At a nominal cost with phenomenal results, nothing less, nothing more.

Services

Be it a complex web platform or a futuristic mobile app for your brand, we've got you covered. We can also hire and host dedicated tech teams for you at a fraction of the cost. Here's a boring list for you to go through:

Software Design & Development

- Web Development
- Mobile App Development
- Quality Assurance and Testing
- Cloud Infrastructure Management
- UI/UX Designing

Tech Staff Augmentation

- Talent Hunt & Technical Evaluation
- Administrative & Equipment Support
- Resource Productivity Optimization
- Replacement & Exit Management
- Payroll & Legal Support

Industries

It doesn't matter which industry you belong to; we've dabbled in quite a few. Hopefully, we haven't caused too much disruption along the way.

- Logistics & Distribution
- Retail & eCommerce
- Healthcare
- Tourism & Hospitality
- Agriculture & Farming
- Cultural Institutions

Tech Expertise

Our engineers know a thing or two about technology, you can tell from the number of logos in the slide (are they even countable? P.S. there are 30).
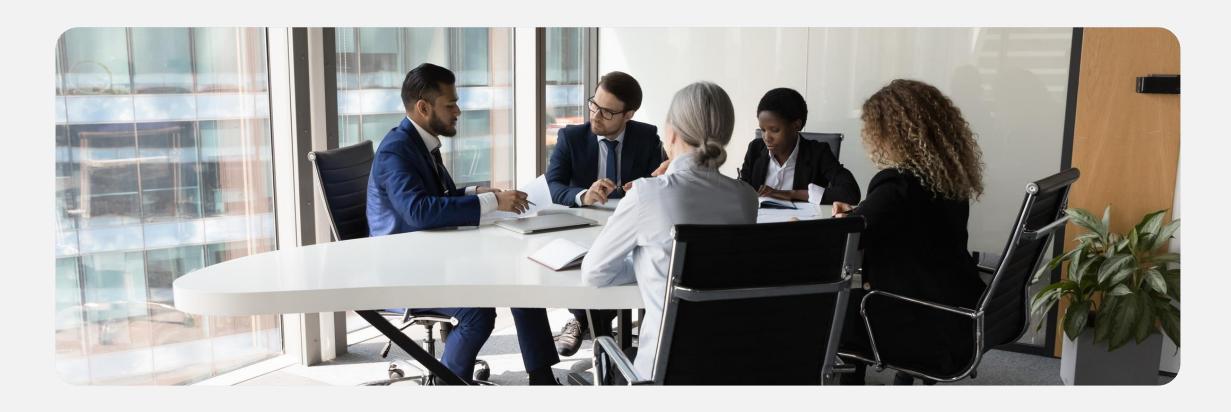

HTML5	CSS	{.js} JavaScript	TypeScript	jQuery
node JS	Vue.js	React	ANGULAR	ember
PHP	laravel	yii framework	CodeIgniter	amazon web services
python	express	django	Panda	mongoDB
MySQL	android	Flutter	Figma	Xd
shopify	WordPress	Magento	Ps	Ai

Let's Connect

Excited to help you achieve your tech goals so that you stay on top of the game.
